New Luxury Magazine BOX It's About Luxury, It's About Pleasure, It's About Enjoying Yourself

(PRWEB) April 12, 2008 -- Over the past 5 years, James Dutton with his first hand global knowledge of Automotive, Aircraft, Marine and Property markets created duttondirect.com, an online business to reflect an appreciation of the value of elite and exclusive products with which the Dutton name is synonymous. Today, with an audience of 80,000 people per month duttondirect.com is a leading online luxury directory, classifieds and online magazine, covering all aspects from pre through to post purchase of luxury automotive, marine, aircraft, real estate, lifestyle products, events and gifts.

In 2003, The Variety Club extended an invitation to (also known for his strong involvement in the luxury sector) become a Footlight Ambassador of their children's charity. Passionate about helping sick Australian children and inspired by the opportunity to make a difference, Barbagallo conceived the idea of Box Magazine, a luxury lifestyle magazine aimed at increasing awareness and raising funds for Australia's children's charities. Today, 100% of the profits from the magazine subscriptions are donated to charity via his own ToyBox Charitable Trust.

"Box Magazine's target audience have a strong desire for the good things in life. Put simply, our target audience are consumers of luxury goods and services," Barbagallo stated.

With a world leading print publication and the awesome on-line platform of duttondirect.com, this partnership is extremely well poised to promote the luxury industry to their desired demographic and at the same time, raise some serious funds for our sick and disadvantaged children.

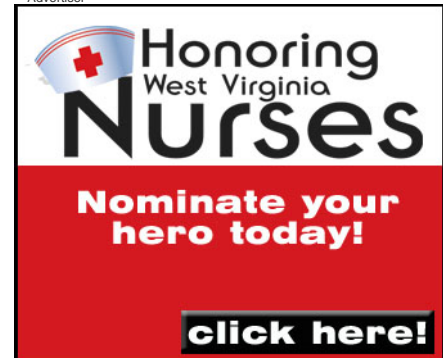

The launch cover is with Jessica Alba with fantastic articles throughout.
